

Hi-Tech Elite Roman Shade

The only Cellular Roman Shade on the
market

We've taken the high-quality, gorgeous presentation that Hi-Tech has always been and added cellular properties for superior insulating value. Plus, we've tucked away cords and components for an unrivaled view from the outside.

The Elite style is available on the Galaxy, Waterfall, Mirage and Variett styles. Plus, you can still add the pleated feature to make any of those styles an infinity shade for a day/night combination.

With the Elite, It's what you don't see that counts....

- You don't see cords or other working parts
- You don't see fabric hems or fabric designs
- You don't see old fashioned wood headrails and pulleys

The Elite is made using two fabric layers with space in between, creating cellular properties. The face side is made with our fabric selection or customers own material. Then the inner layer, cords and working parts are hidden by an outer layer lining (blackout lining is standard for greater insulation and light control).

At DSC Window Fashions, we're here to provide you the finest quality in window coverings. We're always working on creating and providing you with the finest window coverings available. When your customers get a look at our Hi-Tech Elite Roman Shade their going to want the best, make sure you can provide them with the best.
