

PRODUCT FEATURES

THE GRABER WOOD STORY ... EXPERIENCE THE DIFFERENCE

Quality of Wood Defines A Blind's Quality

We use only 100% North American hardwood in the construction of our wood blinds because of its light weight, consistent color, hardness, structural stability, and attractive grain.

Sound Forestry Techniques

We work only with foresters who practice "sustained yield forest management" – nearly twice as much hardwood grows as is harvested in the U.S. each year. The volume of hardwoods in American forests today is 90% larger than it was 50 years ago.

Preserving Our Natural Resources

Our Springs Wood Products facility consumes recycled sawdust and wood shavings, generating the heat required to dry lumber for a completely self-sufficient manufacturing process. Our Reynosa, Mexico fabrication and finishing facility is 99.7% pollution free, above any U.S. standard.

Springs Wood Products, Grayling, Michigan

We have control over the quality of wood used – we control the process from green lumber to finished blinds. Hardwoods used in crafting Graber wood blinds are kiln dried and moulded at our Springs Wood Products facility in Grayling, Michigan. The wood is dried slowly to strict wood blinds specifications because structural change can occur when moisture is removed. Moulding and sanding operations provide the highest quality surface, free of defects.

Springs Fabrication and Finishing, Reynosa, Mexico

At our state-of-the art finishing plant in Reynosa, Mexico, components are carefully sorted prior to fabrication for color uniformity and wood characteristics. We sort wood as an end user, rather than a finishing vendor, taking out defects in a climate-controlled building. To finish the blind, we use only high quality paints and stains; on-site certified color technicians provide both application and quality control.

What Makes Graber Traditions™ Blinds Different from the Rest?

- Wood blinds are made from 100% North American hardwoods, the premier wood used in the construction of blinds
- Springs Wood Products and Finishing facilities provide state-of-the-art technologies and processes
- Expanded choice of finishes with PureGrain™ Finish – vibrant stains that showcase the natural grain of the wood
- Unique valance choices, new solid cloth tapes, three arch choices and more
- Matching colors with Traditions Wood Shutters (See Graber Traditions Shutters tab for pricing and ordering information)
- Traditions Composite blinds with a genuine woodgrain appearance
- The best Customer Service team in the industry – trained to answer any questions about Graber Traditions blinds
- Limited Lifetime Warranty
