BETTER shutters by design.

Vinylbilt Shutters are the perfect solution for bathroom applications, allowing you to control different degrees of privacy and light.

Totally waterproof. Backed by an extended manufacturer's warranty.

Pictured (left) our Clearview Shutter.

Modern technology combined with elegance, innovation, privacy and beauty.

Vinylbilt Shutters offer unmatched durability and versatility, with a wide range of design options, colors and lower sizes.

Vinylbilt Shutters frame styles complement any décor. Shutters allow light control and privacy while adding new dimension to your home.

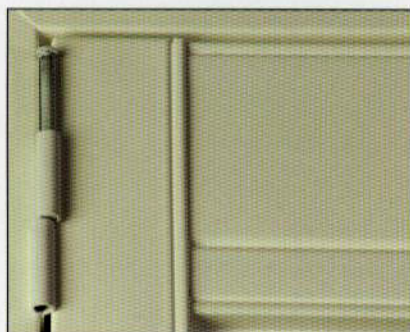

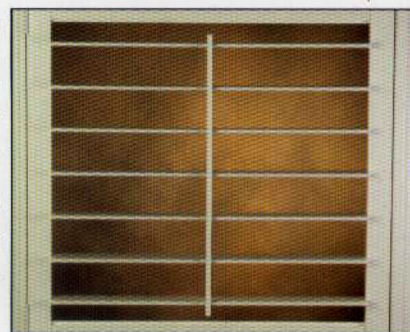

Vinylbilt... the time honored look of shutters.

Patented Clearview Shutters

Patented hidden tilt bar provides an unobstructed view, giving you a clean, contemporary look.

Patented Tilt Bar
The tilt bar can be locked in an open position. This method eliminates the use of staples that tend to break or rust. The tilt bar can close louvers tightly in either direction, unlike other shutters that can only be closed in one direction.

Two Part Hinge System

Factory installed hinges make installation quick and easy. This design also allows panels to be removed easily for cleaning shutter and window.

Adjustable Jamb Cap

Because not all windows are square, a slotted screw is located at the bottom of the panel which can be adjusted to level the panel in an un-square window.

ADDITIONAL FEATURES AND BENEFITS

Made of Polyresin 3 [®]	A colorfast compound with UV stabilizers designed with strength and durability. Shutters will not warp, crack, peel, chip or fade.
Fire Retardant	Polyresin 3 [®] is fire retardant and self extinguishing. It is safe for use in all residential and commercial applications.
Waterproof	Ideally suited for use above kitchen sinks, bathrooms or other high humidity areas. Vinylbilt Shutters have no unsightly staples, which may rust or crack due to water exposure.
Additional Insulator	Hollow design creates dead air space that helps to reduce heating and air conditioning costs and outside noise.
Light Block and Interlock	Exclusive seal that provides unwanted light gaps between panels.
Low Maintenance	The Polyresin 3 [®] compound can be easily cleaned with just soap and water.
Child Safe Design	No hazardous cords to worry about.
Environmentally Friendly	Vinylbilt Shutters do not use our forests resources and all materials are recyclable.

The right shutter, RIGHT **NOW**[™]
