ECLIPSE SHUTTERS

New Innovations

Panel Lock™

The new Panel Lock closure eliminates the need for unsightly magnets by replacing them with a spring-loaded, button-and-ramp mechanism.

Elliptical Louvers

The standard louvers have been redesigned from a rectangular profile to a new elliptical shape for a more contemporary look.

Frame Styles

The frame style collection has been expanded to include the new B-Frame and Deluxe Trim Frame designs.

French Door Cutout

The French Door Cutout allows for the handle to operate freely without interference from the shutter.
