

LAYERS YOU'LL LOVE.

Layers Give your window an attractive, distinctive look with Graber® Sheer Essence™ Layered Shades. They're ideal anywhere you want to control lighting and privacy. The shades are made of fabric with alternating panels of opaque and sheer weaves that loop through a rolling hem bar. Simply align the sheer panels to let light gently filter through, or overlap the sheer fabric on top of the opaque fabric for more privacy.

CREATE A CLASSIC LOOK.

Valances and Cornices Add timeless beauty to your windows with our **valances and cornices**. Fabric wrapped cornices are a smart way to showcase a blend of coordinating patterns and fabrics. Choose wood valances or cornices for an added touch of elegance.

TRIMMED TO PERFECTION.

Gimps and Braids Make a fashion statement on your windows with **decorative gimps** and **braid trims**. They're a perfect way to accentuate your home's look and add just the right amount of flair to decorative valances or hems. Choose from a 7/16" gimp, 3/8" braid trim or 1/4" hem bar trim.

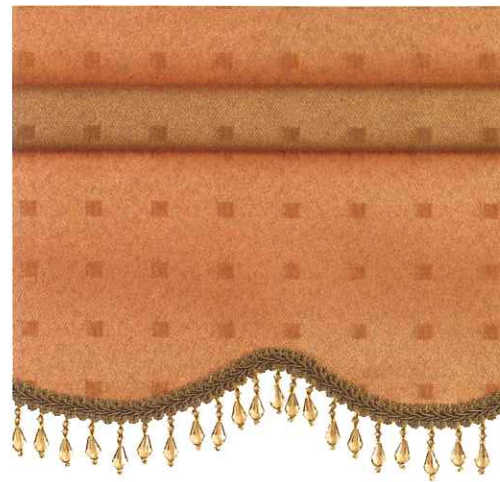

STYLE THAT SPARKLES.

Embellishment Accessorize your Graber® Roller Shades by choosing from a dazzling collection of **crystal beads**, **wood beads** and **braided trim fringe**. They'll turn an everyday window treatment into an extraordinary one.

GREAT PERFORMANCE IN MOTION.

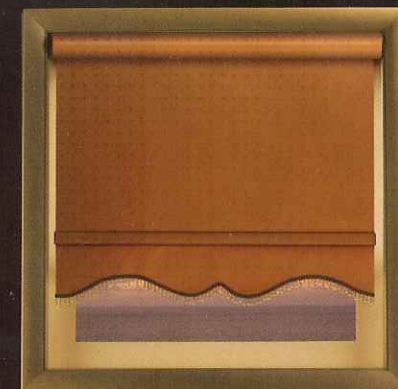

Motorized Shades Remote Motorization is a thing of true technological beauty. Ideal for hard-to-reach shades or for people who may have difficulty accessing standard controls; this feature is the perfect marriage of style and intelligence. Using the programmable wall timer can also give your home a "lived in" look while you're away.

SPRUCE IT UP WITH SCALLOPS.

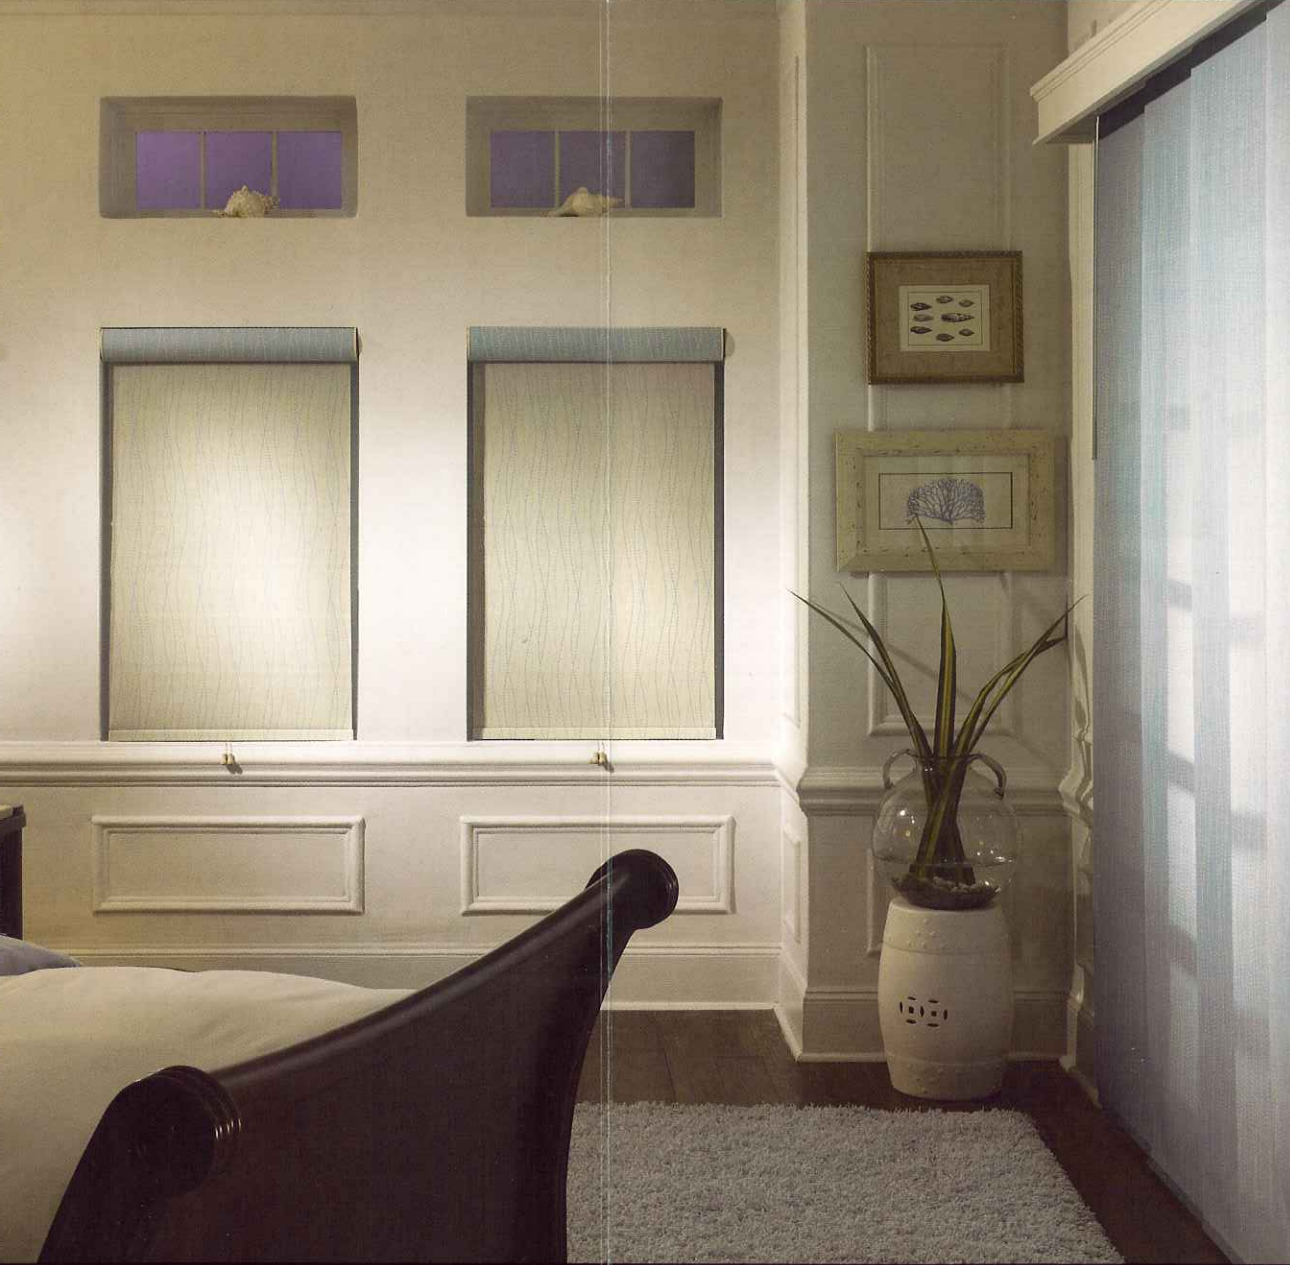

Scallops Add one of five **decorative scallops** to your Graber® LightWeaves® Shades to bring a shapely finish to any window. From the soft curves of a Classic to the geometric edges of a Dentil, our scallops are stunning in every décor. If you're adding a decorative scallop, please select a coordinating gimp, 3/8" braid trim or 2 1/4" braid fringe to complete the design.

EVERY HOME A GALLERY
EVERY WINDOW A CANVAS

NOT READY TO CREATE YOUR MASTERPIECE.

There's no limit to what you can design for your windows with the Graber® LightWeaves® collection. This line of Roller and Solar shades lets you manage the amount of light and glare in every room with a wide array of fabric choices to complement any décor.

MAXIMIZE ENERGY SAVINGS.

Select a light colored solar fabric to better control heat transmission, making your room more comfortable in any season or climate. For protection against damaging UV rays, select a solar fabric with a higher openness factor. For example, a 5% openness factor means that 95% of the UV rays are blocked.

THE LIGHT IS ALWAYS RIGHT.

As shown in above photo, Graber® LightWeaves® coordinates beautifully with the new Panel Accents® Sliding Panels. There are rooms in your home where natural light is always welcome, and rooms where it's not. Even on the sunniest day, the lighting in every room is how you want it with Graber® LightWeaves® Roller Shades. These stylish shades offer a variety of light control options, from sheer and light filtering to room darkening and blackout. They're a perfect blend of function and flair, and a perfect choice for any room.

A GREAT VIEW WITHOUT THE GLARE.

To enjoy the outside light without its glaring and damaging effects, select Graber® LightWeaves® Solar Shades. This line of shades keeps glare off of inside items like computers and televisions, and protects your furnishings against harmful UV rays. Choosing a darker solar fabric will help you better manage glare in the room.

CHOICES TO COMPLETE YOUR LOOK.

You like the practicality of LightWeaves® Shades, but don't want to sacrifice style. That's not a problem because this entire collection offers an array of attractive jacquards, stripes and woven textures that can look rustic, refined or anywhere in between. And with decorative options like valances, cornices or scallops, every window in your home can be a form of creative expression.
