

**STRIKING IN BEAUTY.  
PRACTICAL IN PERFORMANCE.**

**2" Designer Vinyl Blinds** Complete your visual harmony by complementing vinyl vertical blinds with our 2" designer vinyl blinds in the same color. They perfectly pull the entire look and feel of any room together. Each of our 2" designer vinyl blinds can be enhanced with decorative cloth tapes for a colorful accent touch as well as enhanced light control.

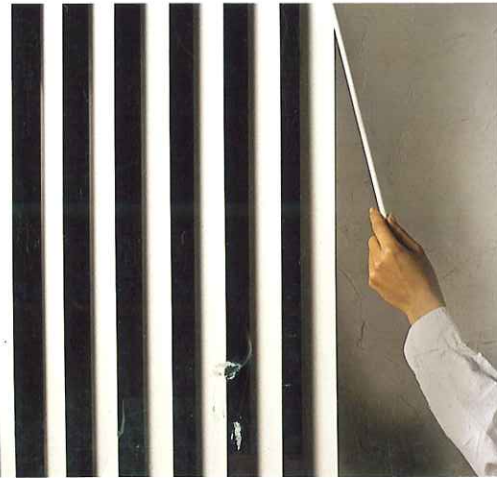

**THE FINAL TOUCH.**

**Valances and Cornices** Create a dramatic stroke of design by coordinating our wood valance and cornice options with your vertical blinds and 2" designer vinyl blinds. All of our valances and cornices are crafted from the finest hardwoods and finished with master-furniture quality stains and paints featured on our Graber Wood Traditions™ blinds and shutter styles.

**FORM WOVEN WITH FUNCTION.**

**Louvers** Complete your creation with one of our many distinctive louvers options, including: **S-Shaped Louvers**, **Crown Louvers** or **Fabric Louvers**. For increased privacy and enhanced room darkening, fabric louvers can be inserted with our **Stay-Clear™ Channel Panels**.

**PLACING CONTROL IN THE HAND OF THE ARTIST.**

**Operating Systems** For many venues, our traditional cord-and chain control system perfectly meets a variety of operational needs. Still, when enhanced appearance and safety are required, our **One Touch™ Control** system is the perfect option. Replacing cords and chains, a slender wand turns easily to rotate louvers, as well as to open and close blinds.

**THE FINE ART OF CONTROLLING LIGHT.**

**Solar Louvers** Our smart solar louvers allow you to look outside while keeping harmful UV rays from coming in. They also help keep the room cooler no matter the season or climate. Keep in mind: the darker the fabric the better the glare control, and the lighter the fabric the better the temperature control. Stratus and Skylight solar louvers coordinate with Graber LightWeaves® solar shades, allowing total control of any window or door throughout your home.

**BECAUSE ART IS ONLY AS LASTING AS THE CANVAS THAT IT IS ON.**

**Vertical Headrail Systems** Behind every work of art should be a sturdy canvas. Ours is the G-71 **Super-Vue** aluminum headrail, the industry standard for strength and performance, capable of being custom sized to fit angled, bow, bay and corner windows. Also available are the G-98 **Ultra-Vue** aluminum headrail for self-aligning and hassle-free performance, as well as the perfectly practical G-85 **Dura-Vue** headrail, offering a more economical option.

#### WIND UP YOURSELF WITH A VISUAL SYMPHONY!

*Our latest collection of vertical blinds and 2" designer vinyl is now available for your home canvas!* From richly textured crossed prints to a new array of elegant neutrals, the possibilities design options have never been greater. And this is just the beginning. Complement your timeless home masterpiece with our line of distinctive upgrades and functional options, including coordinating wood valances and cornices, one-hand controls, as well as the best headrail system in the industry. Get ready to be inspired!

#### WHERE AN ORIGINAL SENSE OF STYLE MEETS MODERN SENSIBILITY.

*Vinyls* With exciting new textures, brilliant new patterns, and an entirely updated color palette, the design possibilities are almost limitless with our latest collection of vinyl vertical blinds. From the earthy tones and stucco feel of our **Nueva** louvers to the sleek look of watermark silk on our **Embassy** style to the soft touch of faux suede with our **Safari** louvers, you will experience vinyl blinds like never before.

#### NEW FABRIC PALETTES FROM SOFT AND PLEASING TO BOLD AND STRIKING.

*Fabrics* Updated with an exhilarating new color palette and dramatic bold new styles – featuring solar, faux suede, and exotic grasses – our fabulous fabric vertical shades can create a look that perfectly reflects your inspiration! Plus, several are designed to perfectly coordinate with our Graber® pleated shade collections.

#### BOUND ONLY BY THE LIMITS OF YOUR IMAGINATION AND CREATIVITY.

*Fabric and Vinyl* No matter whether your choice of blinds is vinyl or fabric – or both – our latest collections are designed to work in perfect design harmony. While it's true that vinyl blinds have traditionally been a sensible choice because of their timeless durability, our newest styles incorporate the genuine colors and textures usually associated with fabrics. Of course, our wonderfully updated collection of fabrics perfectly matches everything your "designing vision" dictates, giving you options for your home that are almost limitless!
